UC Evo Max VCO Line

Best visibility and legibility

With the Flexible Scale Display System, the screen tilt angle and height can be individually adjusted to suit your sales area - including counter height and cash drawers. Backlit LED technology ensures that the display is perfectly legible for your customers, even in the most difficult of lighting conditions.

red dot design 2012

The UC Evo Line has won a red dot award in the Product Design category. This internationally coveted award attests to the outstanding quality of the UC Evo Line's aesthetic and functional design.

User-friendly operation

Fast. Interactive. Very easy to use. The adjustable touchscreen offers the ultimate in ergonomics and convenience during item searches and when selecting functions. This allows your staff to work without fatigue and ensures fast, error-free weighing and operating processes, even at peak times.

Hygienic design

Form follows function. Flat, classic designs, which fit in perfectly with modern store design. Easy on the eyes - and at the same time extremely practical and hygienic. Daily cleaning and care of the scale is made easy thanks to its heavy-duty and easily cleanable surfaces.
